Disclaimer:

Concerning statements in this document, this declaration is provided considering the information currently in our possession and with reference to Safety Data Sheets and declarations provided by our suppliers.

Note that does not routinely conduct any specific analysis aimed at detecting the presence of substances defined in the regulations referenced below.

This information is considered accurate and reliable as of the date above and is presented in good faith. As use conditions and applicable laws may differ from one location to another and may change with time, the recipient is responsible for determining whether the information in this document is appropriate for recipient's use.

Since has no control over how this information may be used, all liability is expressly disclaimed and assumes no obligation or liability therefore.

This declaration is applicable to the products at the time of delivery to the recipient. The recipient is responsible for compliance of products where further processing is carried out.

The recipient has the final responsibility for ensuring that supplied product is handled and processed in accordance with good industrial practices and with instructions and recommendations. The recipient is also responsible for verifying the suitability of the product for his own purpose through appropriate testing and analysis.

This declaration, on this subject and relating to the above-named product, replaces all previous editions.

REACH (Registration, Evaluation, Authorization and Restriction of Chemicals) & SVHC (Substances of Very High Concern)

Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH)

Compliance Statement: *On 4th of February 2026, the ECHA (European Chemicals Agency) released the new Candidate List of SVHCs. With the addition of two new substances, the current list of SVHCs now contains 253 substances. Based on the information available, none of these substances are intentionally added to raw materials or knowingly introduced during the product manufacturing process. We can advise that our product(s) do not contain a concentration above the 0.1% weight by weight (w/w) any substance from this list. We maintain ongoing communication with our suppliers. If they inform us of any status changes, we will promptly notify our customers and collaborate with them to take appropriate action.*

RoHS (Restriction of Hazardous Substances Directive)

Directive 2015/863 is known as RoHS 3 which took effect July 22, 2019. EU RoHS specifies maximum levels for 10 restricted substances. Six substances applied to the original RoHS while the last four (phthalates) were added under RoHS 3.

Compliance Statement: *Based on the information available, all products mentioned in this statement do not contain any of the 10 restricted substances above the limits as specified in the RoHS Directive*

EU Compliance Signing Authority
